ed to any process of amalgamation that may be necessary. The machines work and deliver, wet or dry, as may be re quired, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon John Blanchard...... 2 77 which they operate precludes the possibility of their being put out of order; nor do they heat any material while being pulverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the DRUG GIST to those of the most extensive operations in CALI-FORNIA and AUSTRALIA. . The machines are from 2 to 12 feet in diameter, with balls

or spheres from 3 inches to 5 feet in diameter, each machine weighing from 250 lbs. to 20 tons each, and are sold with the right to use them at from \$100 to \$5,000 each. They can be worked by steam, water, horse, or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any amount of power may be used, from that of a single man, or 55 72 horse, upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast supe iority and economy of these machines over any other, for crushing, grinding pulverizing, heretofore offered to the public. These machines may be seen in operation at the foot of South 8th st., Williamsburg, at the large Patent Block and Saw Factory of Messrs. For the Cure of Dysentery. Diarrhaa, and Summer Complaint.
In presenting this justly celebrated Medicine to the public, we make no rash assertions of its efficacy, nor is any hope held out to the afflicted which facts do not warrant. This remedy having been, for years, used in this place, for the cure of the above diseases and those appertaining to the same class, the Proprietor has been induced to offer it on a more extensive scale, with a view to lessen the amount of human suffering. I have never known it to fail when the directions have been strictly adhered to.

Many useless nostrums have been palmed upon the public,

I recommend it with confidence to the public. J. B. SEAVEY, M. D. SAVANNAH, Ga , December 26th, 1851.—MR WM. H. LIP-

PITT, -Dear Sir: -It is with pleasure I acknowledge the wonderful effects of your Medicine for curing Diarrhosa or Bowel complaint, as I am satisfied it was the means, under God, of saving the life, first of my Child and then of my Brother. As my Brother was given up by two of the most eminent Physicians in this place, Drs. Richardson and Wregg, and when I consulted the latter as to the propriety of trying t on him so low, he said I might to satisfy myself that I had left nothing untried, but he did not think that Medicine would be of any use to him. But thank God he was mistaken, as we saw the salutary effects in 24 hours, and in ten days he was able to be out of bed. I remain yours, very truly and gratefully. WM. BAILEY. WM. H. " Wool Gathering!"

OR, A LIVELY TIME AT THE OLD TREMONT.

Glorious Old Tremont House! The history of that hospitable home of the wayworn traveler, the great and famed Tremont, may never be written, but must live in the memories of the many who, yet surviving the wreck of matter and crush of worlds, will " come whom they have engaged, are such as to ensure, to all who sit thee down " and relate the many high times, the may patronize the institution, the advantages of systematic luxurious times, the convivial times, they have had beneath the roof of that same old, and finally broken up abode of men of every clime, condition, good, had and indifferent, whom "the course of human events" A very extensive and complete Apparatus has been pro- had thrown together, to meet soon to part, each and every time, the wiser and better for it.

Of the many "mems" of interest connected with the Tremont, one at least, will bear relating, not so much, perhaps, for the moral it conveys, as for the fun of the thing. The steamship officers of the Cunard line, as well as the most of the passengers comthese steamers, were, of course, slightly addicted to steam themselves, and very often had very jolly times the aforsaid steamers was in port, and some Port, probably, in him; he had some friends, with one or two foreigners-passengers who had come over with him Higher branches. " No use, sah, I'se not the chile to fool wid!" cobiff, co-bing-pug !-- and into ze jolly Britisher went Congo, like a house a-fire! Of course the companions of the captain loaned him their assistance as soon as they could, but the negro and J. wheeled about and turned about, up and down, mixed up with the captain's mantle, in such circuitous and sudden flipflaps, that the royal captain and " gentleman from Africa" had a tolerable good rough and tumble, before "material aid" was available, and the negro had 12 00 taken to gutta percha heels, at a gait which might be recognized by the fanciful genuses who hang aroun
